ЕЛЕКТРОТЕХНІКА

Частина II. Електроніка

Electrical engineering. Shcherba A.A., Povoroznjuk N.I.
Electrical engineering. Part II. Electronics. – Kyiv: TOV “Nash
Format”, 2013. – 458 p.

ISBN 978-966-02-6086-3 (general), ISBN 978-966-02-
6086-3

The tutorial presents basic concepts, laws and properties of electronic devices. The methods of analog and digital electronic devices analysis are given. Theoretical assumptions are demonstrated with numerous examples.

The tutorial is oriented towards undergraduate students.
